FIGHTERBASE

Vegan

Food list

Every allowed and avoided food, by type. Fully plant-based. No animal products.

Prepared 11 October 2026 for FighterBase members. Eating styles library, one of a set.

> DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.

USING FIGHTERBASE

How to use this food list

This food list is part of your eating styles library in the FighterBase app. The pages that follow are built to be skimmed. You do not need to read it all at once.

1. **Open Nutrition**
   In the app, open the **Nutrition** tab and tap **Eating styles**.

2. **Tap Vegan**
   Read the short summary, what to eat, what to go easy on, and what to watch.

3. **Follow it**
   Tap **Follow this style**. Recipes and the Foods list then filter to match, so you only see what fits. You can follow more than one style.

4. **Download the PDFs**
   Use **Full food list** and **Diet guide** to save these to your phone. Handy for the shop or a restaurant.

5. **Log it and train**
   Meals you log count towards your day. Spend your energy on training, not on reading labels.

The colour key

Green	Amber	Red	Blue
Allowed. Fits this style.	In moderation, small amounts or some versions.	Avoid. The reason is shown.	Check the label or how it is made.
327 allowed	**0** in moderation	**175** avoid	**3** check label

Brand products vary. This list is built from the FighterBase food catalogue of 505 common foods. If a food is not here, ask which group it belongs to and check the label.

AT A GLANCE

Vegan on one page

No meat, fish, eggs, dairy or honey. Protein comes from legumes, soy, seitan, grains, nuts and seeds. Plenty of professional fighters eat this way.

Mostly yes

- Spinach
- Kale
- Carrots
- Beetroot
- Strawberries
- Blueberries
- Almonds
- Walnuts
- Extra virgin olive oil
- Olive oil (light)

Mostly no

- Croissants and pastries
- Cakes and sponge
- Egg pasta and fresh pasta
- Whole milk
- Semi-skimmed and skimmed milk
- Cheddar
- Parmesan and grana padano (animal rennet)
- Honey
- Milk chocolate
- Quorn and mycoprotein (many contain egg white)
- Coffee with milk or cream
- Hot chocolate

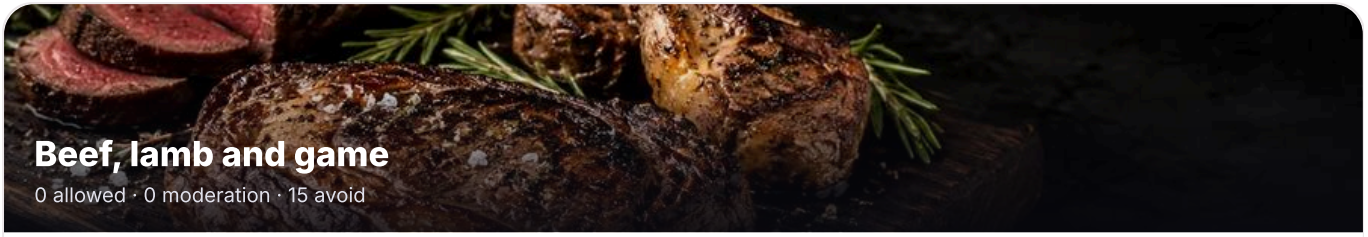

The big ideas

1. No meat, fish, shellfish, eggs, dairy, honey or other animal-derived foods and additives.
2. Beans, lentils, tofu, tempeh, seitan, nuts, seeds, wholegrains, vegetables and fruit make up the diet.
3. Fortified foods and supplements fill the gaps that plants do not.
4. Read labels: animal ingredients appear in unexpected places.

> **Talk to a professional first if:** You are pregnant or breastfeeding; You are a child or teenager; You have symptoms like fatigue, pins and needles or pale skin (get B12 and iron checked); You train hard and do not know your intake.

THE FULL LIST

Every food, by type

Beef, lamb and game

0 allowed · 0 moderation · 15 avoid

AVOID 15

- Beef steak (sirloin, rump, ribeye, fillet) · meat or poultry
- Beef mince (5% to 20% fat) · meat or poultry

AVOID 3

Fish oil (omega-3) · fish · Vitamin D3 (from lanolin) · made from sheep's wool grease (lanolin) · Collagen peptides · made from animal bones and skin

READ THE LABEL

Hidden ingredients

Ingredients can hide in the small print. Look for these on packaging, menus and supplements.

- Casein, whey, lactose, albumin, gelatine, carmine (E120), shellac (E904), isinglass, beeswax (E901), L-cysteine (E920), lanolin
- Vitamin D3 is usually from sheep's wool unless labelled vegan
- Some wines, beers and sugar are filtered with animal products
- 'May contain milk' is a cross-contamination warning, not an ingredient

For fighters and combat athletes

- **No eating style makes a rapid weight cut safe.** Sweating, fluid restriction and crash diets hurt performance and can be dangerous. Plan any weight cut with a registered sports dietitian and your coach, well before the weigh-in.
- **Fuel the training first.** Hard sparring and conditioning need carbohydrate and enough total food. If a style cuts a food group, have a plan to replace what is lost.
- **Protein across the day.** A common general range for people training hard is about 1.4 to 2.0 g per kg of body weight a day (draft range, to be confirmed by a dietitian).
- **Try changes in training, never in fight week.** Test new foods, supplements and timing well before competition.
- **Under 18, pregnant, or with a medical condition:** get advice from a doctor or dietitian before changing your diet.

FIGHTERBASE

Train. Eat. Recover. Repeat.

Your eating styles library lives in the Nutrition tab. Pick a style, follow it, and get back to training.

DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.
