FIGHTERBASE

Low-carb

Food list

Every allowed and avoided food, by type. Fewer starchy carbs, more protein and veg.

Prepared 10 October 2026 for FighterBase members. Eating styles library, one of a set.

> DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.

USING FIGHTERBASE

How to use this food list

This food list is part of your eating styles library in the FighterBase app. The pages that follow are built to be skimmed. You do not need to read it all at once.

1. **Open Nutrition**
   In the app, open the **Nutrition** tab and tap **Eating styles**.

2. **Tap Low-carb**
   Read the short summary, what to eat, what to go easy on, and what to watch.

3. **Follow it**
   Tap **Follow this style**. Recipes and the Foods list then filter to match, so you only see what fits. You can follow more than one style.

4. **Download the PDFs**
   Use **Full food list** and **Diet guide** to save these to your phone. Handy for the shop or a restaurant.

5. **Log it and train**
   Meals you log count towards your day. Spend your energy on training, not on reading labels.

The colour key

Green	Amber	Red	Blue
Allowed. Fits this style.	In moderation, small amounts or some versions.	Avoid. The reason is shown.	Check the label or how it is made.
295 allowed	**140** in moderation	**70** avoid	**0** check label

Brand products vary. This list is built from the FighterBase food catalogue of 505 common foods. If a food is not here, ask which group it belongs to and check the label.

AT A GLANCE

Low-carb on one page

Cuts back on bread, pasta, rice and sugar, without going as far as keto. Meals lean on protein, veg and healthy fats.

Mostly yes

- Beef steak (sirloin, rump, ribeye, fillet)
- Beef mince (5% to 20% fat)
- Salmon (fresh, farmed or wild)
- Trout
- Hen eggs (whole)
- Egg whites (carton)
- Spinach
- Kale
- Carrots
- Beetroot
- Strawberries
- Blueberries
- Almonds
- Walnuts
- Extra virgin olive oil
- Olive oil (light)

Mostly no

- Croissants and pastries
- Cakes and sponge
- Sushi rice
- Muesli and granola
- Condensed and evaporated milk
- Ice cream
- Custard and milk puddings
- Baked beans in tomato sauce
- White and brown sugar
- Honey
- Hot chocolate
- Squash and cordial

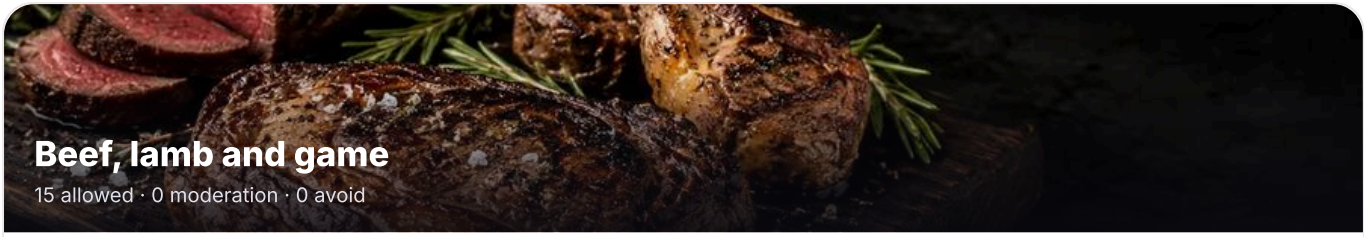

The big ideas

1. Build meals around protein, non-starchy vegetables and healthy fats.
2. Cut back the big carb sources: bread, pasta, rice, potatoes, sugar, sweet drinks and most cereals.
3. Keep some carbs from vegetables, berries and legumes, depending on how low you go.
4. There is no single carb number. Pick a level you can keep up.
5. Fibre still matters: lots of vegetables, some seeds and nuts.

> **Talk to a professional first if:** You take medication for diabetes or blood pressure (doses can need changing); You have kidney, liver or gall bladder problems; You are pregnant, breastfeeding or under 18; You have ever had an eating disorder.

READ THE LABEL

Hidden ingredients

Ingredients can hide in the small print. Look for these on packaging, menus and supplements.

- Sugar can hide as: dextrose, maltodextrin, glucose syrup, honey, agave, fruit juice concentrate
- 'Sugar-free' foods can still carry starch or sugar alcohols (maltitol, sorbitol)
- Look at total carbohydrate per portion, not just 'of which sugars'

For fighters and combat athletes

- **No eating style makes a rapid weight cut safe.** Sweating, fluid restriction and crash diets hurt performance and can be dangerous. Plan any weight cut with a registered sports dietitian and your coach, well before the weigh-in.
- **Fuel the training first.** Hard sparring and conditioning need carbohydrate and enough total food. If a style cuts a food group, have a plan to replace what is lost.
- **Protein across the day.** A common general range for people training hard is about 1.4 to 2.0 g per kg of body weight a day (draft range, to be confirmed by a dietitian).
- **Try changes in training, never in fight week.** Test new foods, supplements and timing well before competition.
- **Under 18, pregnant, or with a medical condition:** get advice from a doctor or dietitian before changing your diet.
