FIGHTERBASE

# DASH-style

## Food list

Every allowed and avoided food, by type. Heart-healthy: veg, fruit, low-fat dairy, less salt.

Prepared 11 October 2026 for FighterBase members. Eating styles library, one of a set.

> DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.

USING FIGHTERBASE

# How to use this food list

This food list is part of your eating styles library in the FighterBase app. The pages that follow are built to be skimmed. You do not need to read it all at once.

1. **Open Nutrition**
   In the app, open the **Nutrition** tab and tap **Eating styles**.

2. **Tap DASH-style**
   Read the short summary, what to eat, what to go easy on, and what to watch.

3. **Follow it**
   Tap **Follow this style**. Recipes and the Foods list then filter to match, so you only see what fits. You can follow more than one style.

4. **Download the PDFs**
   Use **Full food list** and **Diet guide** to save these to your phone. Handy for the shop or a restaurant.

5. **Log it and train**
   Meals you log count towards your day. Spend your energy on training, not on reading labels.

## The colour key

| Green | Amber | Red | Blue |
|---|---|---|---|
| Allowed. Fits this style. | In moderation, small amounts or some versions. | Avoid. The reason is shown. | Check the label or how it is made. |
| **353** allowed | **152** in moderation | **0** avoid | **0** check label |

Brand products vary. This list is built from the FighterBase food catalogue of 505 common foods. If a food is not here, ask which group it belongs to and check the label.

AT A GLANCE

# DASH-style on one page

Short for Dietary Approaches to Stop Hypertension. Designed to support healthy blood pressure, with plenty of fruit, veg, whole grains and low-fat dairy, and less salt.

### Mostly yes

- Salmon (fresh, farmed or wild)
- Trout
- Hen eggs (whole)
- Egg whites (carton)
- Spinach
- Kale
- Carrots
- Beetroot
- Strawberries
- Blueberries
- Almonds
- Walnuts
- Extra virgin olive oil
- Olive oil (light)

### Mostly no

## The big ideas

1. Lots of vegetables, fruit and wholegrains.
2. Low-fat dairy, fish, poultry, beans, nuts.
3. Less red meat, sweets and sugary drinks.
4. Less salt. A standard goal in the research was up to a teaspoon (about 2,300 mg sodium) a day, with a lower level tested in some trials.
5. Fewer foods high in saturated fat.

**Talk to a professional first if:** You already take blood pressure medicine (talk to your doctor before changing your diet or salt); You have kidney disease (potassium and fluid advice may differ); You sweat heavily and are advised to add salt around training. Ask a dietitian.

THE FULL LIST

# Every food, by type

## Beef, lamb and game

0 allowed · 15 moderation · 0 avoid

**MODERATION 15**

- Beef steak (sirloin, rump, ribeye, fillet) · keep to small portions, now and then

**MODERATION 2**

Pea or rice protein · often high in salt · Soy protein · often high in salt

READ THE LABEL

# Hidden ingredients

Ingredients can hide in the small print. Look for these on packaging, menus and supplements.

- Salt per 100 g: more than 1.5 g is high, 0.3 g or less is low (UK)
- Sodium x 2.5 = salt
- Stock cubes, soy sauce, cured meats, cheese and bread are common high-salt foods

## For fighters and combat athletes

- **No eating style makes a rapid weight cut safe.** Sweating, fluid restriction and crash diets hurt performance and can be dangerous. Plan any weight cut with a registered sports dietitian and your coach, well before the weigh-in.
- **Fuel the training first.** Hard sparring and conditioning need carbohydrate and enough total food. If a style cuts a food group, have a plan to replace what is lost.
- **Protein across the day.** A common general range for people training hard is about 1.4 to 2.0 g per kg of body weight a day (draft range, to be confirmed by a dietitian).
- **Try changes in training, never in fight week.** Test new foods, supplements and timing well before competition.
- **Under 18, pregnant, or with a medical condition:** get advice from a doctor or dietitian before changing your diet.

FIGHTERBASE

# Train. Eat. Recover. Repeat.

Your eating styles library lives in the Nutrition tab. Pick a style, follow it, and get back to training.

DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.
