FIGHTERBASE

Carnivore

Food list

Every allowed and avoided food, by type. Animal foods only.

Prepared 11 October 2026 for FighterBase members. Eating styles library, one of a set.

> DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.

USING FIGHTERBASE

How to use this food list

This food list is part of your eating styles library in the FighterBase app. The pages that follow are built to be skimmed. You do not need to read it all at once.

1. **Open Nutrition**
   In the app, open the **Nutrition** tab and tap **Eating styles**.

2. **Tap Carnivore**
   Read the short summary, what to eat, what to go easy on, and what to watch.

3. **Follow it**
   Tap **Follow this style**. Recipes and the Foods list then filter to match, so you only see what fits. You can follow more than one style.

4. **Download the PDFs**
   Use **Full food list** and **Diet guide** to save these to your phone. Handy for the shop or a restaurant.

5. **Log it and train**
   Meals you log count towards your day. Spend your energy on training, not on reading labels.

The colour key

Green	Amber	Red	Blue
Allowed. Fits this style.	In moderation, small amounts or some versions.	Avoid. The reason is shown.	Check the label or how it is made.

84	46	375	0
allowed	in moderation	avoid	check label

Brand products vary. This list is built from the FighterBase food catalogue of 505 common foods. If a food is not here, ask which group it belongs to and check the label.

AT A GLANCE

Carnivore on one page

Meat, fish, eggs and some dairy only. No plant foods. A recent trend with very little long-term research behind it.

Mostly yes

- Beef steak (sirloin, rump, ribeye, fillet)
- Beef mince (5% to 20% fat)
- Salmon (fresh, farmed or wild)
- Trout
- Hen eggs (whole)
- Egg whites (carton)

Mostly no

- White bread
- Wholemeal and granary bread
- Wheat pasta (white or wholewheat)
- Egg pasta and fresh pasta
- Whole milk
- Semi-skimmed and skimmed milk
- Ice cream
- Custard and milk puddings
- Red lentils
- Green and brown lentils
- White and brown sugar
- Honey
- Tofu (firm, silken, smoked)
- Tempeh
- Herbal and fruit teas
- Decaffeinated coffee and tea

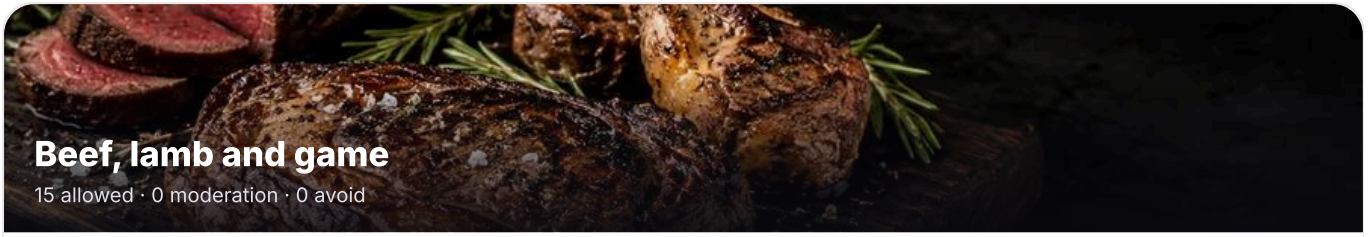

The big ideas

1. Eat only animal foods: meat, fish, eggs and, for some, dairy.
2. Drink water, and maybe coffee or tea if you allow them.
3. Salt to taste.
4. Fat is the main fuel after protein, so fattier cuts are usual.
5. Stricter versions are 'meat, salt and water' only.

> **Talk to a professional first if:** You have kidney, liver, gall bladder or heart problems, high cholesterol or gout; You take medication for diabetes or blood pressure; You are pregnant, breastfeeding or under 18; You have ever had an eating disorder; You want to do it for more than a few weeks without medical advice.

THE FULL LIST

Every food, by type

Beef, lamb and game

15 allowed · 0 moderation · 0 avoid

ALLOWED 15

Beef steak (sirloin, rump, ribeye, fillet) · Beef mince (5% to 20% fat) · Beef joint (topside, brisket, silverside) · Beef short ribs and oxtail · Beef burgers (home-made, 100% beef) · Lamb chops, leg and shoulder · Lamb mince · Mutton · Goat · Venison · Rabbit · Wild boar · Bison and buffalo · Pheasant, partridge and grouse · Veal

READ THE LABEL

Hidden ingredients

Ingredients can hide in the small print. Look for these on packaging, menus and supplements.

- Processed meats may contain sugar, starch, dextrose or plant fillers
- Check sausages, bacon, burgers and stock
- Read cheese and cream labels if you include them

For fighters and combat athletes

- **No eating style makes a rapid weight cut safe.** Sweating, fluid restriction and crash diets hurt performance and can be dangerous. Plan any weight cut with a registered sports dietitian and your coach, well before the weigh-in.
- **Fuel the training first.** Hard sparring and conditioning need carbohydrate and enough total food. If a style cuts a food group, have a plan to replace what is lost.
- **Protein across the day.** A common general range for people training hard is about 1.4 to 2.0 g per kg of body weight a day (draft range, to be confirmed by a dietitian).
- **Try changes in training, never in fight week.** Test new foods, supplements and timing well before competition.
- **Under 18, pregnant, or with a medical condition:** get advice from a doctor or dietitian before changing your diet.

FIGHTERBASE

Train. Eat. Recover. Repeat.

Your eating styles library lives in the Nutrition tab. Pick a style, follow it, and get back to training.

DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.
