FIGHTERBASE

Gluten-free

Food list

Every allowed and avoided food, by type. No wheat, barley or rye.

Prepared 11 October 2026 for FighterBase members. Eating styles library, one of a set.

> DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.

USING FIGHTERBASE

How to use this food list

This food list is part of your eating styles library in the FighterBase app. The pages that follow are built to be skimmed. You do not need to read it all at once.

1. **Open Nutrition**
   In the app, open the **Nutrition** tab and tap **Eating styles**.

2. **Tap Gluten-free**
   Read the short summary, what to eat, what to go easy on, and what to watch.

3. **Follow it**
   Tap **Follow this style**. Recipes and the Foods list then filter to match, so you only see what fits. You can follow more than one style.

4. **Download the PDFs**
   Use **Full food list** and **Diet guide** to save these to your phone. Handy for the shop or a restaurant.

5. **Log it and train**
   Meals you log count towards your day. Spend your energy on training, not on reading labels.

The colour key

Green	Amber	Red	Blue
Allowed. Fits this style.	In moderation, small amounts or some versions.	Avoid. The reason is shown.	Check the label or how it is made.
439 allowed	**0** in moderation	**57** avoid	**9** check label

Brand products vary. This list is built from the FighterBase food catalogue of 505 common foods. If a food is not here, ask which group it belongs to and check the label.

AT A GLANCE

Gluten-free on one page

Leaves out gluten, a protein in wheat, barley and rye. Essential for people with coeliac disease; some others feel better without it.

Mostly yes

- Beef steak (sirloin, rump, ribeye, fillet)
- Beef mince (5% to 20% fat)
- Salmon (fresh, farmed or wild)
- Smoked salmon
- Hen eggs (whole)
- Egg whites (carton)
- Spinach
- Kale
- Carrots
- Beetroot
- Strawberries
- Blueberries
- Almonds
- Walnuts
- Extra virgin olive oil
- Olive oil (light)

Mostly no

- White bread
- Wholemeal and granary bread
- Wheat pasta (white or wholewheat)
- Egg pasta and fresh pasta
- Custard and milk puddings
- Fruit pastilles and wine gums
- Seitan (wheat protein)
- Beer and lager

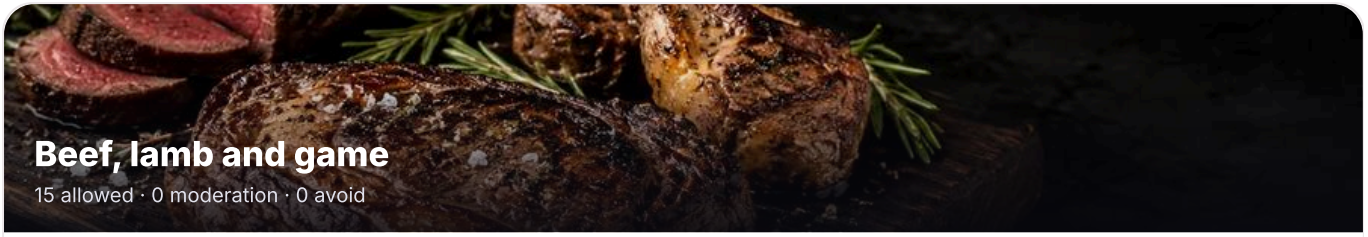

The big ideas

1. Avoid wheat, barley and rye and anything made from them (including spelt, kamut, semolina, couscous, bulgur, seitan).
2. Oats are only safe if labelled gluten-free because of cross-contamination.
3. Naturally gluten-free foods are plentiful: meat, fish, eggs, dairy, fruit, vegetables, rice, potatoes, maize, quinoa, legumes.
4. Cross-contamination counts for coeliacs: crumbs, shared toasters and shared fryers.
5. Do not self-diagnose: gluten-free eating before testing can hide coeliac disease.

Talk to a professional first if: You think you might have coeliac disease (get tested before cutting gluten out); You have unexplained tiredness, stomach trouble or weight loss; You are pregnant, breastfeeding or under 18.

THE FULL LIST

Every food, by type

Beef, lamb and game

15 allowed · 0 moderation · 0 avoid

ALLOWED 15

Beef steak (sirloin, rump, ribeye, fillet) · Beef mince (5% to 20% fat) · Beef joint (topside, brisket, silverside) · Beef short ribs and oxtail · Beef burgers (home-made, 100% beef) · Lamb chops, leg and shoulder · Lamb mince · Mutton · Goat · Venison · Rabbit · Wild boar · Bison and buffalo · Pheasant, partridge and grouse · Veal

Algae omega-3
Vitamin D3 (from lanolin)
Vitamin D (from lichen)
Multivitamin and mineral tablet
Magnesium
Caffeine tablets
BCAAs and EAAs
Collagen peptides
Pea or rice protein
Soy protein

READ THE LABEL

Hidden ingredients

Ingredients can hide in the small print. Look for these on packaging, menus and supplements.

- Look for 'gluten-free' (20 parts per million or less in UK and EU rules)
- Contains: wheat, barley, rye, malt, brewer's yeast
- Doubtful: soy sauce (usually wheat), stock cubes, sauces, malt vinegar, some sausages, some crisps

For fighters and combat athletes

- **No eating style makes a rapid weight cut safe.** Sweating, fluid restriction and crash diets hurt performance and can be dangerous. Plan any weight cut with a registered sports dietitian and your coach, well before the weigh-in.
- **Fuel the training first.** Hard sparring and conditioning need carbohydrate and enough total food. If a style cuts a food group, have a plan to replace what is lost.
- **Protein across the day.** A common general range for people training hard is about 1.4 to 2.0 g per kg of body weight a day (draft range, to be confirmed by a dietitian).
- **Try changes in training, never in fight week.** Test new foods, supplements and timing well before competition.
- **Under 18, pregnant, or with a medical condition:** get advice from a doctor or dietitian before changing your diet.

FIGHTERBASE

Train. Eat. Recover. Repeat.

Your eating styles library lives in the Nutrition tab. Pick a style, follow it, and get back to training.

DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.
