FIGHTERBASE

Whole-food plant-based

Food list

Every allowed and avoided food, by type. Vegan, mostly unprocessed.

Prepared 11 October 2026 for FighterBase members. Eating styles library, one of a set.

> DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.

USING FIGHTERBASE

How to use this food list

This food list is part of your eating styles library in the FighterBase app. The pages that follow are built to be skimmed. You do not need to read it all at once.

1. **Open Nutrition**
   In the app, open the **Nutrition** tab and tap **Eating styles**.

2. **Tap Whole-food plant-based**
   Read the short summary, what to eat, what to go easy on, and what to watch.

3. **Follow it**
   Tap **Follow this style**. Recipes and the Foods list then filter to match, so you only see what fits. You can follow more than one style.

4. **Download the PDFs**
   Use **Full food list** and **Diet guide** to save these to your phone. Handy for the shop or a restaurant.

5. **Log it and train**
   Meals you log count towards your day. Spend your energy on training, not on reading labels.

The colour key

Green	Amber	Red	Blue
Allowed. Fits this style.	In moderation, small amounts or some versions.	Avoid. The reason is shown.	Check the label or how it is made.
242 allowed	**5** in moderation	**257** avoid	**1** check label

Brand products vary. This list is built from the FighterBase food catalogue of 505 common foods. If a food is not here, ask which group it belongs to and check the label.

AT A GLANCE

Whole-food plant-based on one page

Plants in as close to their whole form as possible: beans, grains, veg, fruit, nuts. Little oil, sugar or processed food.

Mostly yes

- Spinach
- Kale
- Carrots
- Beetroot
- Strawberries
- Blueberries
- Almonds
- Walnuts
- Extra virgin olive oil
- Olive oil (light)

Mostly no

- White bread
- Gluten-free bread
- Egg pasta and fresh pasta
- Gluten-free pasta (corn or rice)
- Whole milk
- Semi-skimmed and skimmed milk
- Cheddar
- Parmesan and grana padano (animal rennet)
- Falafel
- Baked beans in tomato sauce
- White and brown sugar
- Honey
- Soya mince and soya chunks
- Quorn and mycoprotein (many contain egg white)
- Coffee with milk or cream
- Hot chocolate

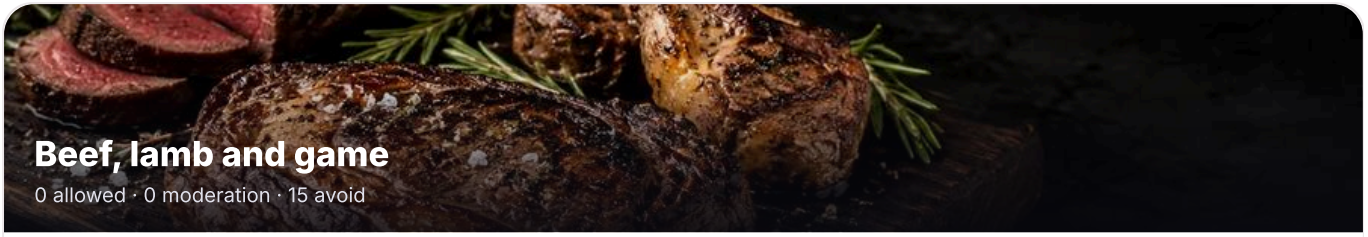

The big ideas

1. Vegetables, fruit, legumes, wholegrains, nuts and seeds.
2. No animal products.
3. Refined sugar, white flour and highly processed foods are minimised.
4. Added oils are limited or avoided in the strictest versions (some versions allow a little olive oil).
5. Most food is eaten close to its natural form.

> **Talk to a professional first if:** You are pregnant or breastfeeding; You are a child or teenager; You are underweight or a heavy-training athlete struggling to eat enough; You have a history of disordered eating (strict rules can be risky).

THE FULL LIST

Every food, by type

Beef, lamb and game

0 allowed · 0 moderation · 15 avoid

AVOID 15

- Beef steak (sirloin, rump, ribeye, fillet) · meat or poultry

Fish oil (omega-3) · fish · Vitamin D3 (from lanolin) · made from sheep's wool grease (lanolin) · Collagen peptides · gelatine or collagen (animal) · Pea or rice protein · processed, not whole food · Soy protein · processed, not whole food

READ THE LABEL

Hidden ingredients

Ingredients can hide in the small print. Look for these on packaging, menus and supplements.

- Look for short ingredient lists
- Avoid products listing refined oil, sugar, white flour as main ingredients
- Fortified plant milks are usually fine and help with calcium and B12

For fighters and combat athletes

- **No eating style makes a rapid weight cut safe.** Sweating, fluid restriction and crash diets hurt performance and can be dangerous. Plan any weight cut with a registered sports dietitian and your coach, well before the weigh-in.
- **Fuel the training first.** Hard sparring and conditioning need carbohydrate and enough total food. If a style cuts a food group, have a plan to replace what is lost.
- **Protein across the day.** A common general range for people training hard is about 1.4 to 2.0 g per kg of body weight a day (draft range, to be confirmed by a dietitian).
- **Try changes in training, never in fight week.** Test new foods, supplements and timing well before competition.
- **Under 18, pregnant, or with a medical condition:** get advice from a doctor or dietitian before changing your diet.

FIGHTERBASE

Train. Eat. Recover. Repeat.

Your eating styles library lives in the Nutrition tab. Pick a style, follow it, and get back to training.

DRAFT: not yet reviewed by a registered dietitian. General information only, not medical advice. Check with your doctor or a registered dietitian before changing how you eat, especially if you have a medical condition, are pregnant, or are under 18.
